

Peter Ablinger

Smoke Setector, Smoke

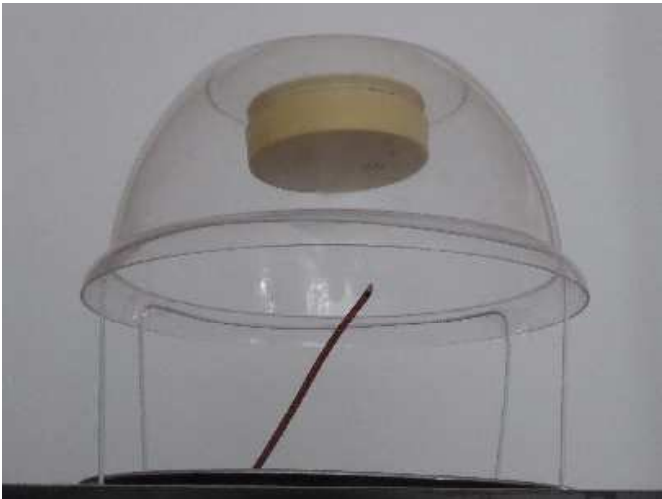

premiere

a small room
an unfriendly room
concrete box
maybe no windows
ugly light

4x4 chairs in rows (or 3x3, or 5x5)
on a pedestal:

a smoke detector with incense stick under a transparent bell

when the audience is seated, someone comes, lights the incense stick and leaves the room.

The bell fills with smoke: the smoke detector sounds (unbearable!). The audience (presumably) flees the room.

End.
